

DO YOU HAVE QUESTIONS

ABOUT FIRE RETARDANT TREATED WOOD?

Are FlamePRO® products backed by a warranty?

FlamePRO® offers a 50 year limited warranty. Other products may only offer 20 year warranty coverage.

What is the advantage of pressure treatment?

With FlamePRO, fire retardant protection is pressure impregnated into the wood fibers. It is not just surface applied.

If FlamePRO fire retardant treated plywood is damaged on the job site can it still be used?

The performance of FlamePRO is not impacted from normal shipping, handling or incidental job site damage.

Is FlamePRO expensive?

FlamePRO offers one of the most cost competitive options for fire retardant protected wood products.
